RIVER NAVIGATION.

The feasibility of successfully navigating the Saskatchewan at Edmonton will soon be given a supreme test.

Messrs. Crockett and Blum, of Fort St. John, are in Edmonton at present, with a trial trip made up of a thirty-foot gasoline launch with all modern equipments. With this launch they will ascertain the style and size of boat which will be practicable for navigating the Saskatchewan.

The launch is expected daily, in fact it has already been several days longer than necessary on the road from Duluth.

The boat will be unloaded here, put together, and a trial trip made up the river.

If the boat proves satisfactory and the gentlemen in charge have every assurance that it will, the hull and machinery for a good sized steamer will be shipped into Edmonton this fall, and the vessel built during the winter.

In the meantime the launch will be fitted up for picnics and excursions will be run regularly up the river. This will be a perfect boon to the pleasure loving people of Edmonton, and is sure to be successfully put to sea.

After the trial trip is made, Messrs. Crockett and Blum will take the city council for a run up the river to exhibit the feasibility of navigating the Saskatchewan, both up and down from Edmonton.

The promoters of the plan are men of money and experience and the scheme is no wild cat affair. Both men have spent considerable time in Edmonton. Last fall they took several trips up the river and are particularly enthusiastic over the future of Edmonton, and are confident that river navigation will mean a great deal for this city. These gentlemen come to us asking no bonuses or favors of any kind but when they have proven conclusively that the navigation of the Saskatchewan is not only possible, but highly practicable, then the council would be taking a highly commendable action by building a small wharf at some place most convenient to Edmonton for the accommodation of such craft.

EDMONTON EXHIBITION.

Every citizen of Edmonton, and the people of the surrounding districts should attend the Edmonton Exhibition. Tuesday is the opening day and the sports and attractions will be just as good as on the following two days.

There will be no deteriorating between the days of the fair as regards attractions; one day will not be made specially attractive at the expense of the other two. The program for the exhibition has been carefully prepared, and large sums of money have been spent in prizes and attractions and it now remains for the public to assist by patronizing the exhibition. Our city must appear at its very best during fair week. Flags and bunting should be used freely and everything done to give the city its most attractive appearance.

A Violent Scene at a Lynching.

Wilmington, Del., June 23.—All is quiet in this community today following the lynching of George White. Helen Bishop confessed slayer. At an early hour today the mob of nearly 5,000, which overpowered the authorities, stormed the Newcastle workhouse and dragged from a cell the trembling wretch and burned him at the stake. The identity of only one is publicly known, that person is little Peter Smith, 12 years old, who fell when the guard fired a volley into the ranks of the attackers. The lad was struck by a bullet which entered his back. At the homeopathic hospital, where the injured boy was immediately taken, the physicians stated today that he is in a serious condition. After the mob had completed its awful work of vengeance the body of the negro was left chained to the stake with the fire burning all around it and the members of the lynching party went home. A rain, which began falling later, extinguished the fire and at daylight the charred body still hung limp in plain sight of passersby. Public sentiment here so far as expressed, appears to approve of the lynching of White. At noon today Deputy Coroner Kilmer went to the scene of the lynching for the purpose of securing some of the remains of the negro so as to go through the legal form of holding an inquest, but according to the story of those who left the place an hour previously there was little probability of his finding anything substantial, as the relic hunters had made off with the pieces of bones that remained.
